

AA SCREENING DETERMINATION

Of

Water Networks Programme – Clonbur, Co. Galway

In accordance with Article 6(3) of the EU Habitats Directive (Directive 92/43/EEC) and Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, Irish Water has undertaken Appropriate Assessment screening to assess, in view of best scientific knowledge and the conservation objectives of the site, if the project, individually or in combination with other plans or projects is likely to have a significant effect on a European Site(s). In this context, particular attention was paid to the European Sites listed below:

Lough Corrib SAC (000297), Ballymaglancy Cave (000474), Lough Carra/Mask Complex SAC (001774), Maumturk Mountains SAC (002008), Connemara Bog Complex SAC (002034), Kildun Souterrain SAC (002320), Clyard Kettle-Holes SAC (000480), Cloughmoyne SAC (000479), Mocarha Lough SAC (001536), Shrule Turlough SAC (000525), Mweelrea/Sheeffry/Erriff Complex SAC (001932), Lough Corrib SPA (004042), Lough Mask SPA (004062), Connemara Bog Complex SPA (004181).

In accordance with Regulation 42(7) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, Irish Water has made a determination following screening that an Appropriate Assessment is not required as the project is not directly connected with or necessary to the management of the sites as European sites and as it can be concluded, on the basis of objective information, that the project, individually or in combination with other plans or projects is not likely to have a significant adverse effect on the European sites listed above.

This determination is based on small scale and short duration of the proposed works which are located within the existing road.

Signed:

GERRY GALVIN
