Public Alert: Boil Water Notice

Irish Water and Galway County Council

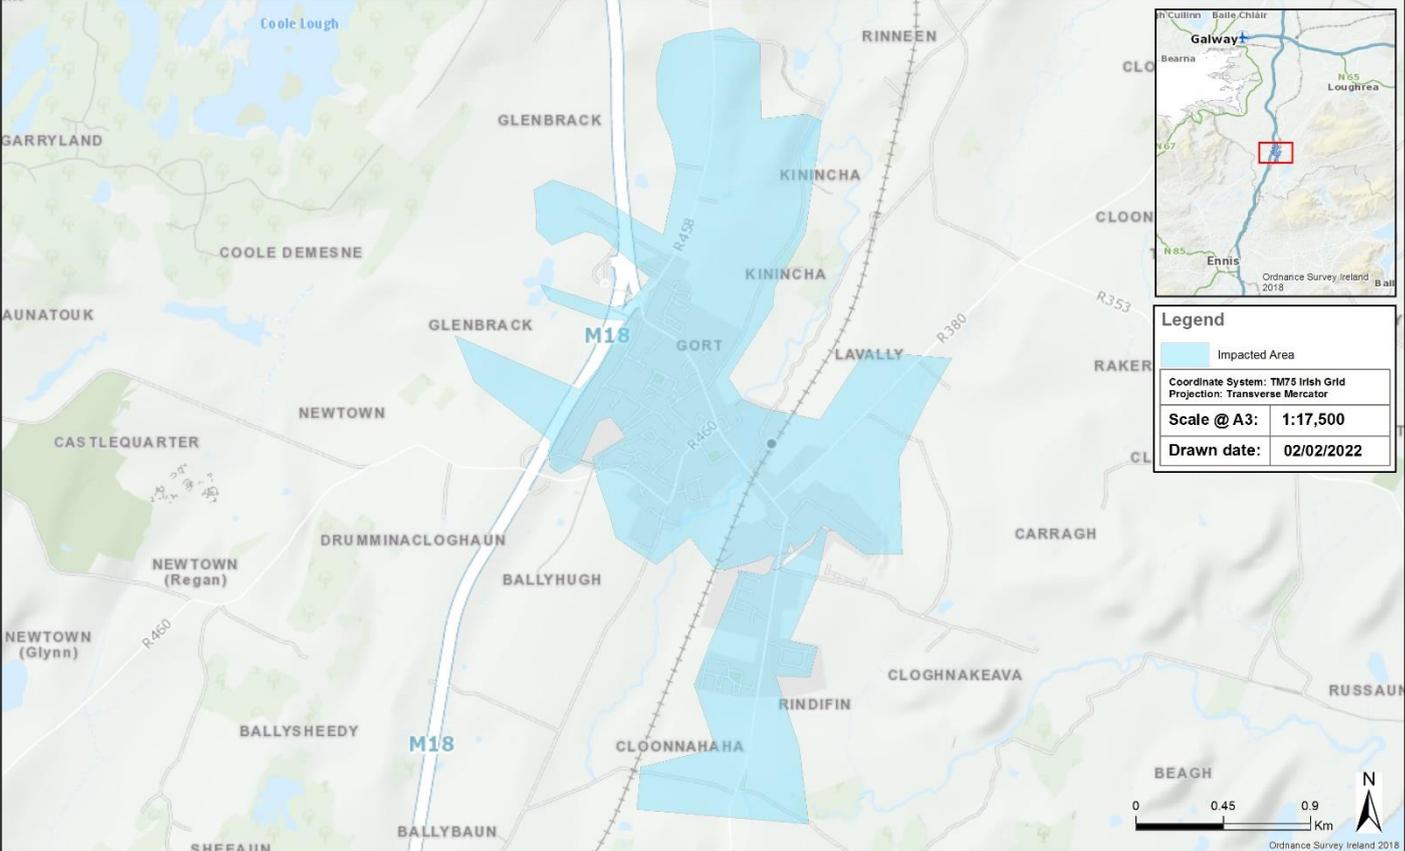

Gort PWS

Date of Boil Water Notice: 12th December 2022

It has come to the attention of Irish Water and Galway County Council that the water supply in the Gort area that is served by the **Gort Public Water Supply** is at risk due to instrumentation and mechanical issues at the water treatment plant caused by the freezing conditions. Following advice from the Health Service Executive, Irish Water and Galway County Council are issuing a temporary **Boil Water Notice** to protect consumers in the Gort area and as indicated in the areas shared in **blue** in the accompanying map.

This notice only applies to all consumers on the **Gort Public Water Supply as indicated by the attached map** that are connected to the Gort public supply and who must **boil water before use**. A map of the scheme, detailing the area affected, is also available on www.water.ie and www.galway.ie.

Gort Public Supply - Boil Water Notice
Estimated Residential Population: 2,776

Areas : All persons served by the Gort PWS.

1: Water must be boiled for:

You Must Boil Your Water for:

- Drinking**
- Drinks made with water
- Preparation of salads and similar foods, which are not cooked prior to eating
- Brushing of teeth
- Making of ice

2: What can you use water for:

You can use your Water for the following:

- Personal hygiene, bathing and flushing of toilets but not for brushing teeth or gargling.
- Boil water by bringing to a vigorous, rolling boil and allow to cool. Cover and store in a refrigerator or cold place. Water from the hot tap is not safe to drink.

3: Caution:

Please ensure the following:

- Domestic water filters will not render water safe to drink.
- Caution should be taken when bathing children to ensure that they do not swallow the bathing water.
- Discard ice cubes in fridges and freezers and filtered water in fridges. Make ice from cooled boiled water.

4: Only use Prepared Water (boiled and cooled) for the following situations.

- Use water prepared for drinking when preparing foods that will not be cooked (e.g. washing salads).
- Prepare infant feeds with tap water that has been brought to the boil once and cooled. Do not use water that has been re-boiled several times. If bottled water is used for the preparation of infant feeds it should be boiled once and cooled. If you are using bottled water for preparing baby food, be aware that some natural mineral water may have high sodium content. The legal limit for sodium in drinking water is 200mg per litre. Check the label on the bottled water to make sure the sodium or 'Na' is not greater than 200mg per litre. If it is, then it is advisable to use a different type of bottled water. If no other water is available, then use this water for as short a time as possible. It is important to keep babies hydrated.

5: Advice:

Note the following advice:

- Use boiled water for:
 - Drinking any drinks made with water, making ice,
 - Preparation of salads and similar foods, which are not cooked prior to eating
 - Brushing of teeth,
 - Wash your hands carefully after going to the toilet, changing nappies, and before preparing food.
 - Be careful when bathing small children to ensure that they do not swallow bath water.

Who is most at risk? Persons with impaired immune systems, young children and older people.

6: Take Care:

Always Take Care:

Care should be taken with boiled water to avoid burns and scalds as accidents can easily happen, especially with children.
